

Belco Resources Equipment

HAY TEDDERS

Increase faster drying time with Belco Resources hay tedders.

Available in 3 popular sizes, a 10' two basket tedder for smaller or more confined operations, a 17' four basket tedder available in manual or hydraulic lift and a 6 rotor 24 ½' working width with double tandem wheels for high production commercial applications.

All Belco Resources tedders utilize large high floatation "balloon tires" to smoothly glide across fields. They quickly spread damp wet hay in an even pattern to allow for fast drying conditions. Forged steel multi-fingered couplers on the 17-foot tedders eliminate open universal joints that can quickly fail if not maintained properly.

Forged heat-treated, multiple-finger steel couplings ensure precise arm timing and eliminating open universal joints (on 17' models only)

360 degree guards are standard on all models and sizes

Model	Working Width	Lift Standard	Min HP	Rotors	Tine Arms	Tires	Wt. lbs	Wt. Ship lbs
BHT-10M	10'	N/A	15	2	12	(2) 15.6 x 6	420	460
BHT-17M	17'	Manual	25	4	24	(4) 15.6 x 6	950	1,010
BHT-17H	17'	Hydraulic	25	4	24	(4) 15.6 x 6	975	1,035
BHT-25H	24'6"	Hydraulic	30	6	36	(8) 16 x 6.5	1,644	1,724

Increasing agricultural productivity since 1974
