

Belco Resources Equipment

ROTARY CUTTER

Constructed of heavy gauge steel, the Belco Resources Rotary Cutter is the perfect machine for your all around brush cutting needs. The Belco Cutters come in popular 4, 5 & 6 foot working widths, and are ideally suited for compact tractors 40 HP and under.

Don't be confused; make sure you compare apples to apples. Large gearbox, 11 gauge deck, series 4 PTO shaft with safety slip clutch, laminated tire, round stump jumper, and rear safety shield which all tend to be options on the competition or are only found on their heavier models, are standard equipment on ours.
